5.63C

WHEEL
LOADERS

4K LINKAGE.

New completely redesigned linkage to the latest state of the art, for **maximum breakout force and interchangeability with previous versions.**

AUTO

SAFETY IS OUR PRIORITY.

The negative parking brake is integrated into the front axle for maximum safety in all operative conditions *(optional on 4.63H).*

SILENCE, PLEASE.

Thanks to the new sound proof technology and special “anti vibration” rubber shock absorbers it was possible to reach **a deeply noise reduction inside cabin, for maximum comfort** for the operator.

360°

BREATHTAKING VIEW.

The new cabin design guarantees **360° visibility**, for **complete working control** on each attachment installed granted the **best safety condition ever. Cabin level II ROPS/FOPS.**

BE COOL.

The **brand new ventilation system** grants an high level of operator comfort. With **VENIERI CLIMATRONIC** or thanks to new technological Air-condition you can find the perfect Environment inside your cabin.

100% VENIERI DESIGN.

In the new machines our **Venieri Design Lab** follows the “family feelings” but introduces significant **stylistic innovations.**

TOTAL STABILITY.

Oscillating rear axle fixed to the frame with **maintenance-free** supports.

NEW TIER 4i/STAGE IIIB ENGINE.

The new **Yanmar** and **Deutz** engine complies with the **latest emission standards** delivering **high torque** at low rpm.

AIR CYCLONE
PRECLEANER

ALWAYS CLEAN AIR.

The new air cleaner system offers a **two stage filtration**, through **high efficiency primary filters** and **safety filters**, that could be integrate with cyclon pre-filter (*optional on 4.63H*) for maximum engine protection.

DOUBLE ATTENTION FOR FUEL SAVING.

The new electrically controlled **dual speed cooling fan**, adjusts the rotation speed according to the working conditions, **reducing fuel consumption and noise**.

BUILT FOR POWER, DESIGNED FOR AGILITY.

The **special layout of the counterweight** grants **perfect maneuverability**, **maximum drive angle** and protection of the integrated rear lights in narrow spaces.

4.63H

WHEEL LOADER "Z" LINKAGE

DIESEL ENGINE

4 cylinder in line engine, common-rail injection with electronic control, exhaust gas recirculation, water cooled, dry filtration, particulate filter. Emissioned according to CE 97/68 - Stage IIIB/Tier 4i.

Type	Yanmar 4TNV98C	
Max. power	53 kW - 72 HP	
Rated rpm	2.500	
Power ISO/TR 14396	51,7 kW - 70 HP	
Power EEC 80/1269	51,7 kW - 70 HP	
Economic working range (rpm)	1200 - 1600	
Max torque	Nm	241
Bore	mm	98
Stroke	mm	110
Displacement	cm ³	3.319

ELECTRIC SYSTEM

Battery	12 Volt	
Capacity	110 Ah - 850 A	
Alternator rating	80 A	
Reverse warning	Standard	
Wiring accord to	IP 67 - DIN 40050	

TRANSMISSION

Hydrostatic transmission with automatic power regulation and closed circuit with pumps and variable displacement engine. Two speed fwd/rev, with single-lever electronic control.

Speed	Forward	Reverse
1 st gear km/h	0 ÷ 7	0 ÷ 7
2 nd gear km/h	0 ÷ 30	0 ÷ 30

2nd gear automatic selection available as optional

AXLES

Two heavy duty equal size axles with planetary final drives in each wheel. Fixed rigid drive axle. Oscillation rear axle on rear chassis section up to a total angle of 25°. Transfer gearbox transferring movement directly to the rear and to the front axle via transmission shaft.

Self locking limited slip differential on front axle.

Self locking limited slip differential on rear axle (optional).

BRAKE

Service: hydraulic multi-disc oil brake on front axle working on all the wheels.

Parking brake: mechanical operating on service brake.

TYRES

Standard	16/70 x 20
Optional	405/70 R20 • 14.5 x 20

STEERING

Servo-assisted steering **LOAD SENSING** system.

Total steering angle	80°	
Inner tyres turning radius	mm	2.585
External tyres turning radius	mm	4.515
External bucket turning radius*	mm	4.980

* Bucket on traveling condition

HYDRAULIC SYSTEM

Two gear pump, the first for loader and steering circuit with **LOAD SENSING** valve, the second for the fan circuit with two rotating speed. Modular two-element control valve with main relief valve. Double acting hydraulic cylinders. Hydraulic oil cooling radiator. Full flow oil filter on the return line. Single lever arm to control 4 position lifting system and 3 position bucket system.

Max. flow	lt/1'	70
Max. flow with kit high flow (optional)	lt/1'	100
Loader relief valve pressure	bar	230
Steering relief valve pressure	bar	190
Lift cylinder	mm	80x585
Bucket cylinder	mm	85x395
Lifting time (full)	sec.	4.8
Lowering Time (empty)	sec.	3.7
Unloading Time	sec.	1.95
Total cycle time	sec.	10.45

THE NEW CABIN

A BREATHTAKING VIEW.

Take a seat in your customized control room. Create your ideal work space by **adjusting** the **pneumatic seat*** and the **steering wheel** to suit your specific needs. Select the commands, **all at your fingertips**. Excellent **visibility to 360°** gives you the best view to work with maximum efficiency. The combination of **breathtaking cabin** and the **latest state of the art of 4K linkage** allows the **maximum control** of your attachments.

**Optional.*

In the new 5.63C and 4.63H cabin we **minimized "blind spots"** for **superb visibility** in all working conditions.

OPEN SESAME!

The **door with double opening** allows the operator to work with the entrance door closed, with top glass opened, ensuring **maximum ventilation** even with the A/C off and **without protruding parts out of shape**.

5.63C

BEAUTY FINALLY MEETS FUNCTIONALITY.

The Venieri Design Lab, with the 5.63C new cab tried to merge **function** and **style** with the aim of become the best in the market. The new interior design has also allowed us to create different compartments useful for storing small tools, mobile phone, beverage, and more.

ARTIFICIAL INTELLIGENCE.

Advanced man/machine interface, which constantly **monitors the performance of the machine** and communicates **each diagnosis** to the operator via a large and detailed LCD screen in the dashboard.

LAYOUT A

LAYOUT B

SETTINGS

ENGINE ERROR

4.63H

**VENIERI STYLE.
TOP LEVEL
EFFICIENCY AND FUNCTIONALITY.**

Venieri Design Lab has redesigned the new cabin of 4.63H following the ambition to grant the best mix of **Italian style, design and functionality** even in a middle size loader range.

The **"Venierization"** of the interiors include the **yellow components** like a "nice to have" during your daily working process. Thanks to the new **Human/Machine interface** included in the **intuitive LCD** display, you can have a smart and constant control over the machine performances, **always connected to your Venieri.**

The brand new column steering system include the patented **adjustment control**, in order to fit exactly working/driving modes.

BE COOL.

The entire ventilation system has been redesigned according to **ISO10263** also ensuring easy maintenance to the heating and A/C unit. Using a single dashboard, the operator can choose the ideal temperature, ensuring **maximum working comfort**. The 5.63C and 4.63H can be equipped with **Venieri Climatronic**.

THE BLACK BOX.

For the first time on a Venieri cabin, all electrical controls are positioned in a **waterproof** position accessible only from inside the cabin, easy to access and complete all diagnostics.

(Photo: 5.63C)

ENJOY THE SHOW.

The driver's seat is equipped with the **most advanced solutions in terms of comfort** for maximum operational efficiency.

CLASS EVOLUTION.

CLEAN POWER, ZERO CONSUMPTION. NEW DEUTZ TIER 4/STAGE IIIB ENGINES

The engine that equips the 5.63C is the **new Deutz TD 2.9 L4**, a four cylinder unit of **2.925 cc** awarded as **best engine in his class**. The impressive performance, reliability and durability distinguishing this engine have been made possible by adopting the most advanced technology, such as: **external exhaust gas recirculation, electronically controlled Common Rail injection with 1600 bar of pressure, turbocharger and wastegate valve**, and much more for a minimum specific consumption of **just 225 g /kWh**, - an outstanding figure for an engine of this size - which, through the use of an external gas recirculation system and the diesel oxidation catalyst (**DOC**) compliance with the **Tier 4i** emissions regulations and achieved.

5.63C Deutz TD 2.9 L4
58 kW - 79 HP

JAPANESE TECHNOLOGY YANMAR ENGINE TIER 4/STAGE IIIB

The engine that equips the 4.63H is the **new Yanmar 4TNV98C**, a four cylinder unit of **3.319 cc** with **EGR system (Exhaust Gas Recirculation)** and **Diesel Particulate Filter DPF**; this has the peculiarity to operate without additives by capturing the fine dust of the exhaust gases and burning them during the automatic regeneration process, **keeping the filter clean** and keeping operating costs down. The DPF can work in three different modes: **assist regeneration, active regeneration, stationary regeneration**. The Yanmar engine is equipped with a **Common Rail electronic injection system**, that grant an accurate control of the injection and combined with the exhaust treatment system, ensures **low fuel consumption** and reduces pollutant emissions. This engine is already ready **for the introduction of the new Stage V**, which will enter in force in 2019.

4.63H Yanmar 4TNV98C
53 kW - 72 HP

Venieri GLOBAL

Venieri GLOBAL™ is the newest Venieri monitoring system by Satellite allowing increase productivity, providing detailed information on the fleet and equipment, as well as an incredible amount of data to ensure the highest levels of performance and greater economic efficiency.
